

The Industry Leader in Efficiency

Adamation Door-type dishmachines will wash more dishes, in less time, with lower operating costs and utility usage than any other machine on the market.

ADT-ILT Performance Data

- 37 Racks per hour rated capacity
- 1.7 gal/rack (64 gal/hr.) max. water usage
- Reduced energy usage from less hot water consumed

ADT-1LT

Door-type Low Temperature Dishmachine Rated capacity of 37 20" x 20" racks per hour.

☐ ADT-1LT

- Low-temp dishmachine

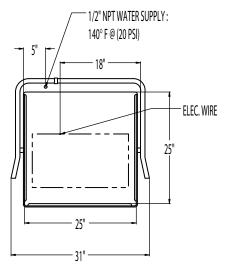

STANDARD FEATURES

- Simple, Fully Automatic Operation
 One switch fills and heats the wash tank, and one button activates the wash cycle.
- Super Soil Stripping Wash
 Advanced wash pattern provides substantial, complete cleaning power while still protecting delicate wares.
- Easy Access 3/4 Hp Pump
 Drip-proof pump motor recirculates wash water, reducing detergent usage and increasing heat efficiency.
- Water Saving Design
 1.7 gallon recirculating wash tank is resupplied by final rinse water, reducing chemical usage per rack.
- Stainless Steel Front and Side Panels
- Field Convertible to Corner Model
- Single-point Utility Connections
- Interchangeable Upper and Lower Wash Arms
- Door Safety and Low Water Protection
- Built-in Waste Accumulator
- Balanced Three-door Lift System
- Top-mounted Spalsh-proof Control Console
- Three Built-in Chemical Dispensing Pumps
