

The Inventors of the Carousel Dishmachine
Adamation is the originator of the carousel concept, and has been the industry leader for nearly 50 years. The space utilization, ergonomics, design flexibility and labor savings are unmatched by any other style of machine.

Rolla-veyor

Gravity Conveyor System

Parallel dual wheel tracks on downhill table system. Can include multiple horizontal turns. Trays accumulate at end.

STANDARD FEATURES

- **2" Diameter Nylon Roller Wheels**
Roller wheels mounted into 18" long lift-out H-frames for easy cleaning. Will pass through dishmachine on standard 20" racks.
- **Heavy-duty Stainless Steel construction**
14 ga. stainless steel tables with tubular stainless steel legs.
- **Easy Lift-out Roller Frames**
H-shaped roller frames are easily removed, allowing conveyor to be used with waste-handling system.

OPTIONAL EQUIPMENT

- **6" Garbage Trough**
Recessed into conveyor table, length as required by design.
Pitched from shallow end to disposal opening at opposite end.
- **Flanged Feet**
- **Stainless Steel Side Panels**
- **"A" Hemmed Table Ledge**
- **"B" Boxed Table Ledge**
- **"C" Backsplash Table Ledge**
- **Glass Breakdown Station**
